CAREER OBJECTIVE

Motivated Electronics and Communication Engineering student with an interest in electronics, programming, and IoT-based technologies. Seeking opportunities to develop technical and practical skills, gain industry experience, and contribute to real-world engineering projects while continuously learning and improving.

EDUCATION

Bachelor of Engineering – Electronics and Communication Engineering	AIT, Chikkamagaluru	CGPA: 7.8
Pre-University Course (12th)	MBPU College, Davanagere	80%
SSLC (10th)	Navachethana High School, Channagiri	87%

TECHNICAL SKILLS

• C Programming • Python • Basic IoT Concepts • Basic Electronics

ACADEMIC PROJECTS

Smart Irrigation Using IoT

• IoT-based concept for monitoring soil moisture and controlling irrigation.
• Designed to reduce unnecessary water usage through automated irrigation.
• Gained practical understanding of sensors, IoT, and automation.

Distance Measurement

• Worked on a project based on measuring distance using electronic components/sensors.
• Gained practical knowledge of sensor-based measurement and electronic systems.

LANGUAGES

Kannada | English

HOBBIES & INTERESTS

Dancing • Singing • Listening to Music • Gardening

PERSONAL STRENGTHS

• Quick learner • Hardworking and responsible • Interested in learning new technologies
• Teamwork and communication • Willingness to improve technical skills
